THE SOUTHWEST.

PLEASANT GLIMPSES OF THIS FAVOR-ED SECTION OF VIRGINIA

Great Growth in Wealth and Population.

BLUEFIELD, W. VA., September, 1890. For six weeks I have been making the st of my summer vacation by attend-the meetings of district associations, broad, mingling almost daily with the ltitudes who attend these large gather-

Southwest Virginia is much greater in extent of territory and in many other respects than many of those who have not been over it think. Not a few are accustomed to think of it as a contracted region, containing a few places that have been beomed into a notoriety far beyond their merits. They know scarcely anything of the vast and fertile regions out here, which were inaccessible until now the new railroads have thrown them open to the whole world. Of course there has been an inflation of prices in all such sections, but it has been for the most part a moderate advance. Thousands and tens of thousands of acres of land in the back counties can be bought at from \$2 to \$5 per acre. And even in the neighborhoods of many of the growing towns good farming land may be had at quite reasonable prices. Those who think of Southwest Virginia as a small patch precupied and ruled by prices which make it quite a risky business to invest here would think otherwise if they could see the many openings here and there and almost everywhere where persons of moderate means may invest with comparative safety and with almost a certainty of good returns.

THE AGRICULTURE OF WEST VIRGINIA IM-FROVING.

Formerly the small farmers of Southwest Virginia were of all men most miserable (as farmers everywhere are too apt to think concerning themselves). They raised but little and there was little demand for that little. The great grass farmers raised scarcely anything but cattle, and hence they had no need to employ many laborers. A boy or two to look after the flocks and herds met all the demands of such farmers. And, besides, the facilities for transportation were so few and costly that if a farmer chanced to raise more than he needed for home consumption it was difficult to sell it for a remunerative price.

Southwest Virginia.

WHAT JUDGE LATHAM PAYS ABOUT IT.

Just here I am reminded of what Judge
Latham, formerly of Lynchburg, told me
to-day. He is now living at Bramwell and
is connected with mining operations, and
seems to be thoroughly up on the business. In reply to my inquiries he said:
"Here (Pocahontas) we have a coal-field
fifty miles long and twenty wide. Six
years ago you could ride all day through
this region without meeting a single individual. Now we have a population of
20,000 within a radius of five miles. We
have 2,000 coke-ovens and some 400 more
in course of construction. Year before
last we shipped 1,700,000 tons, and this year
we will ship 2,225,000 tons, exclusive
of coke—I speak only of coal. Last year
we will ship 2,225,000 tons, exclusive
of coke—I speak only of coal. The largest
output from any one entry of a coal-mine
ever made was made here a few days ago.
Through one of these entries in a single
day we took out 3,800 tons of coal." After
pausing a moment the Judge continued:
"I will tell you now the strangest thing of
all. Only one fifth of the amount we could
raise from the mine is sent off. The rolling
stock of the road is taxed to its utmost to
move the one fifth of the amount which
we could furnish if there were transportation for it. You may safely say that we
have barely began the development of
this mighty coal-field."

NEW BAILBOADS.

The projected road from Bluefield to

NEW BAILBOADS.

have barely began the development of this mighty coal-field."

NEW RAILBOADS.

The projected road from Bluefield to Hinton, a distance of only forty miles, will let the Chesapeake and Ohio into this coal field, and that would help in many ways.

General Mahone, representing a northern syndicate, is out here in the interest of a new railroad from Tazewell Courthouse to McDowell Courthouse. I am told that his engineers are now surveying the route. Within a few days the General has bought \$64,000 worth of iron lands. He had before that made large purchases in this same region. In almost every direction one hears talk of new roads to be built.

As I passed Bedford City that magic town was excited over the new road soon to be built from that point to Big Island, on the Chesapeake and Ohio railway. It had just come to light that very soon that link in the Pittsburgh and Atlanta road would be commenced, and that soon this competing line would wake up old Bedford and other adjoining counties.

At Roanoke all the talk was about the Roanoke and Southern, which is now being built to that city. Salem expects to get a branch of the same road and also the Baltimore and Ohio (and it would seem a little something of everything else).

A little further on at Christiansburg they are talking of a new road, while at Radford they are counting on two more roads, one of which they will surely get.

Pulsakl, too, expects much from the road that is to open to it a great southern trade. The would fail to tell of the many such ventures which are likely to materialize in the near future. Great trunk lines like the Richmond and Danville, the Louisville and Nashville, and the Chesapeake and Ohio, are planning to relieve the Norfolk and Western of the burden which it has had to bear because of its having a monopoly. I verily believe that there is need to day for one hundred new railroads in Southwest Virginia, and there is nothing to hinder me trong tiving an honest judgment in the premises. The outside world is just beginning and here is no

Confederate armies. Often then a congregation would have representatives from half a dozen States. Last Sunday in Bluefield I preached to men from dozens of East Virginia counties and from several States. There are vast multitudes of young men in these West Virginia towns who can be saved and made very useful if religious influences are now brought to bear upon them.

a handsomer thing than his people here did last Sunday.

"Two seds to the booming business."
And here I am reminded of a little tour Rev. J. R. Harrison and myself made to some of the booming towns to beg a few thousand dollars for finishing the new building at the Glade-Spring Female Institute.

We happened to reach one place on a great sale day and we walked into the Real Estate Exchange and were warmly welcomed, as they thought we had come to invest. At once they began to tell of the large amounts of money they had made and how easy others could make by buying lots, &c., &c. After several had spoken in this strain Brother J. R. Harrison, whom they had taken to be something of a bloated bondholder, said in a quiet way:

"Gentlemen, we are here not to huy "Gentlemen, we are here not to have a sailing master of New York, is here." He coes to Lexinoton.

Mr. R. A. Marr, who recently resigned from the United States coast-survey and geodetic service to accept the chair of eivil engineering in the Viriginia Military Institute, will leave with his family for Lexington early next week. Mrs. Marr is the eld-set daughter of the late Captain James Barron Hope.

A feature of the session of the colored Grand Lodge Independent Order of Good Templars here was the appointment of a committee on political action consisting of five members to report within three weeks recommendations touching the action Good Templars of Virginia should take on the failure of the House of Representatives to pass the Blair educational bill.

A GREAT SALIOR.

Captain J. W. Simmons, a distinguished spilor.

rison, whom they had taken to to buy, thing of a bloated bondholder, said in a quiet way:

"Gentlemen, we are here not to buy, but to beg," and then he urged the claims of the good cause and begged for help.

What a coolness it east upon the boomers! They looked at each other with a sad, perplexed look; they looked out of the window as if they wished they could leap through it and get out of the scrape.

At last one of them broke the solemn silence by assuring us that there were "two sides to this booming business," and that they themselves had made very little. Just then one of the number said: "Boys, we are caught, and I feel as mean as a dog, but here is \$10 for that Glade-Spring school." Harrison laughed and took the \$10. Yours very truly, A. E. Digninson.

The same that the country with the further amounts and the country with the fu

two were won by each club.

AN ELECTRIC SHOCK.

During the electric-storm which passed over this city to-day lightning struck the house of Mr. J. H. Chatham, near Melrose Park, and knocked the chimney down, besides causing a severe shock to the inmates. Miss Emma Gray Morehead, the accomplished daughter of Hon. J. Turner Morehead, of North Carolina, who has been spending several days with her friend Miss Mary Marshall Daniel, left to-day for her home, much to the regret of her many admirers. mirers.
Samuel Gwinn, a youth, was arrested to-day, charged with threatening to shoot several colored men with whom he had an

Sloop and Springs Alenk.

Sloop and Springs Aleak.

[Special telegram to the Dispatch.]

Warsaw, V. .. September 6.—The steamer
Lady of the Lake on her way from Norfolk
to Washington at 1 o'clock this morning
struck an oyster sloop off Point Lookout
and sprung aleak. The water increased
to such an extent that the pumps could
not keep her affeat, and the captain was
compelled to beach her on King Capscaco
Point at 3 A. M. He telegraphed to Washington for assistance.

DANVILLE, Va., September 6.—The tobacco market this week has been rather
quiet, because very little tobacco has been
marketed, but all classes of tobacco offered were readily taken up at advanced
prices and new tobacco went off like hot
cakes. One of the oldest warehousemen
here says he has never known the market
to be stronger and that the outlook for a
splendid trade this fall is excellent. The
new crop is all that could be desired and
in a month or two the market will pull.
Manufacturers shipped nearly a quarter of
a million pounds of plug this week and
are looking in ward to an unusually brisk
trade later on. [Special telegram to the Dispatch.]

WHEELING COPS IN REVOLT. They Refuse to Obey the Chief and Pro-

WHERLING, W. VA., September 6.—The local police this morning absolutely refused to obey their Chief's orders to man the street-cars and protect the non-union operators. The company attempted to run the cars without protection, but numerous obstructions were put on the track, and after one car was wrecked the effort was given up. The company will appeal to the State for protection.

A Syndicate's Forfeit.

(Special telegram to the Dispatch.)

WHEELING, W. VA., September 6.—The English syndicate, which took an option on the Ætna and Standard Rolling-Mills of this city for one million and a half dollars, has allowed the option to lapse and the deal is off. The syndicate forfeits a large amount paid as bonus.

MAJOR R. P. WHEELER

THE DEPUTY PAST COMMANDER OF THE G. A. R. OF VIRGINIA DEAD. Negro Templars Want to Know Why the

Blair Bill Was Not Passed-Early Cotton Season.

This country needs men like Rev. M. A.
Wilson, who has built thirteen churches.
His best church is the one we have just dedicated here in Bluefield. Indeed, it is a thing of beauty. He has many a time handed around the hat in Richmond, and he may come again, for these new towns must be aided. Money cannot be more wisely invested than in giving these masses the Gospel and doing it promptly.

All denominations seem to be doing well in Southwest Virginia. You will find the Methodist and the Presbyterian and often the Episcopal brother pushing ahead putting up his new church.

Some idea of how the people help them selves and each other out here may be drawn from the thousand-dollar collection raised here last Sunday. More than one third of it was given by Methodists, Prestyterians, and other denominations, although it is a Baptist church house, the first of the first

Captain J. W. Simmons, a distinguished sailing-master of New York, is here. He sailed the Puritan in the famous race with the Genesta and the Volunteer for the Goelet cup.

The exports of Virginia coal from Lambert's Point this week footed up 24,000 tons.

TO STUDY FOR THE MINISTRY. Mr. S. J. Battin, private secretary to the Superintendent of the Virginia Beach Railroad Company, has resigned to study for the Methodist ministry, and will leave for Randolph-Macon College on the 17th

INCONSISTENCY OF THE PROTECTIONISTS.

Mr. Reagan commented upon the fact that while the protectionist senators were in favor of admitting fish free they imposed a duty of 195 per cent. on cottonties. In other words, they were high protectionists when protection was necessary for their interests and free traders when free trade was in their interest.

A vote was taken on the committee amendment to paragraph 545, and it was agreed to, without the yeas and nays. It now reads: "Fresh fish caught by citizens of the United States in the high seas or in the open water of the lakes forming the boundary between the United States and the Dominion of Canada."

Paragraph 278, relating to fish on the dutiable list, was then taken up. As finally agreed to it reads: "Fish smoked, dried, salted, pickled, fresh, frozen, packed in ice, or otherwise prepared for preservation not specially enumerated or provided for in this act, one half of one cent per pound."

Mr. Gorman moved to reduce the duty

pound."

Mr. Gorman moved to reduce the duty on hops to eight cents per pound. AN EXTENSION OF TIME.

Before discussion on this amendment closed the question as to an extension of time for the consideration of the tariff bill was started by a proposition for an evening session. After an interchange of views on both sides Mr. Aldrich withdrew the proposition for an evening session and submitted another, extending the time for consideration of the tariff bill to and including Monday, when the discussion is to be limited to thirty minutes and when the sugar schedule is to be taken up; after that the arrangement heretofore made to apply.

VOTING TO BEGIN TUESDAY.

The proposition was assented to, and the presiding officer (Mr. Ingalls) asked whether the understanding was that on Tuesday voting should begin and should continue until the stage of third reading is reached, after which three hours is to be allowed to each side for a general summing up. General assent was given to that understanding.

Mr. Vest moved to put salt on the free list. Rejected—26 to 34—a party vote, except that Mr. Paddock voted yes.

VANCE'S FARM-PRODUCT AMEXIMENT. VANCE'S FARM-PRODUCT AMENDMENT.

Mr. Vance offered the amendment of which he had given notice on the 1st of September for a reduction of duties on foreign products purchased by an exchange of American farm products. Rejected—yeas 23, nays 30—a party vote.

On motion of Mr. Gibson sorghum-seed and sugar-capa seed were placed on the

free list.
In paragraph 675 Mr. Aldrich, for the Finance Committee, offered an amendment imposing a duty of four cents a pound on tim. Agreed to without the yeas and nays. Mr. Call moved to strike cocoanuts out of the free list so as to have them put on the dutiable list. Rejected.

Mr. Call also moved to put pineapples and bananas on the dutiable list at 20 per cent. Rejected. SPOONER'S TIN-PLATE PROPOSITIONS

Mr. Spooner offered the amendment proposed by him on the 20th of August to the tin-plate paragraph 87. It provides for the admission of tin plates free of dutafter October, 1896, in case the America production of the article shall not equin any of the intervening years one thir of the amount imported and entered for consumption.

Cape of Good Hope instead of directly from China.

Mr. Gorman moved to add to Mr.

Evarts's amendment a proviso that teas imported directly into the United States on through bills of lading from countries east of the Cape of Good Hope and transseast of the Cape of Good Hope and transshipped to any toreign port or place shall not be subject to daty.

DRAWBACKS. DRAWBACKS.

On motion of Mr. Sherman, section 24 (allowing a drawback of the duties on imported materials used in exported manufactures) was amended by the provision that no drawbacks shall be allowed in any case where the duties paid on the imported material are less than 10 per cent, of the value of the manufactured goods or where the claim shall be for less than \$10.

The Finance Committee amendments to the sections from 9 to 25, the administrative features, were agreed to without being read.

Sections 25 and 26 of the bill, relating to dealers in leaf tobacco, were, on the recommendation of the Finance Committee, struck ont-yeas 24, nays 21—all the Democrats voting against it, reinforced by Messrs, Platt, Stewart, and Teller.

All the sections in the House bill from 27 to 46, inclusive, were, on the recommendation of the Finance Committee, struck out.

PEDDLEES OF TOBACCO, 40, They related to the internal-revenue pro-visions as to peddlers of tobacco and taxes on tobacco and cigars and vinegar-fac-tories.

The sections from 52 to 60 (relating to

The sections from 52 to 60 (relating to domestic wines, &c.) were also struck out, and the committee amendments to other sections of the bill were agreed to.

This closed the consideration of the tariff bill, except as to the sugar section, reciprocity, and some few reserved paragraphs which will come up Monday. RIVERS AND HARBORS.

The conference report on the river-and-harbor bill was presented and read.

The presiding officer (Mr. Ingalls) said that on a measure involving so large a sum of money and including so many contested considerations he would not take the responsibility of declaring that the conference report was agreed to unless it appeared that a quorum was present.

On a division there were but twenty-one senators voting, and so, without action on the conference report, the Senate adjourned.

House of Representatives.

The House proceeded to the considera-tion of the conference report on the river and harbor bill.

After a brief debate the conference report was agreed to.

early part of the week was cloudy, with occasional showers, the precipitation being
below the average, except in the northeastern portion of the State, where it was
in excess. The latter part of the week has
been quite warm, with plenty of sunshine.
Cotton is generally opening well and
picking is progressing rapidly.
The tobacco crop seems to be a very
good one. The week was very favorable
for making good cures and farmers have
been unusually successful. Land is being
prepared for winter oats and wheat and
some have already commenced to sow. A
few reports indicate some damage to cotton from rust and shedding.

THE TRADES-UNION CONGRESS. A Boycott Resolved Upon of Unfairly-Made Goods, Etc.

Made Goods, Etc.

[By Anglo-American cable to the Dispatch.]

LIVERPOOL, September 6.—At to-day's session of the Trades-Union Congress it was resolved to boycott unfairly-made goods, and all railways, tramways, and boats whose employes are underpaid. It was also resolved to exclude representatives of non-umon papers from future congresses. Mr. Birtwistle, leader of the cotton-workers, resigned from the parliamentary committee, giving as the reason for his action that he was not in favor of the passage of a compulsory eight-hour labor law. Mr. Slatter was appointed to succeed Birtwistle, but he refused to accept the position. John Burns, the Socialist leader, was then appointed a member of the committee in Birtwistle's stead. This announcement was received with cheers and groans. The congress then adjourned.

CENSUS FIGURES.

Vermont's Population Decreased; the City of Louisville's 161,005. (By telegraph to the Dispatch.)

Washington, D. C., September 6.—The Census Office gives the total population of Vermont as 332,205—a decrease in the last ten years of eighty-one. The population of Louisville, Ky., is 161,005—an increase of 37,247.

ALOTION SALES-Future Days THE SECOND GREAT SALE

Building Lots

SALEM DEVELOPMENT COMPANY,

SALEM, VA., WILL BE HELD ON THE COMPANY'S GROUNDS ON

FRIDAY, SEPTEMBER 12, 1890. AT 1 O'CLOCK P. M.,

400-CHOICE LOTS-40

The property of the SALEM DEVELOPMENT COMPANY is generally admitted to be the finest property in Salem. Salem is located upon the main line of the Norfolk and Western railroad six miles west of Bosnoke city, and is the chartered terminus of the Valley branch of the Baltimore and Ohio railroad, and may be justly styled the gateway in the great mineral and coal region known as Southwest Virginia. It is the point where the products of this famous region will first find competition on their way to the northern and eastern markets.

The property to be offered is in the immediate vicinity of the proposed new hotel. The streets now being macadamized by the company pass right through the property to be offered at the sale. The Dummy railway from Roanoke is completed to within one mile of Salem. No town in the South has kept so steadily advancing during the sum-

mer months as SALEM. The number of buildings erected during the

summer has been astonishing. The population of Salem has doubled within the past ten months! The postal and telegraph business has increased 350 per cent, in the past ten months, and money invested in lots has made FROM 400 TO 800 PER CENT, IN LESS THAN EIGHT MONTHS. The first sale made by this company was made on the 13th of August, and over \$230,000 of lots have been sold at an average of \$612 per lot. The lots to be offered are located in the centre of the company's property and very near the passenger station of the Norfolk and Western railroad. Three passenger
